

Cub Scouts Visit Submarine

Sunday was Cub Scout day at Mare Island, at least for St. Helena Scouts. Headed by Gene Metz, a party of 91 Scouts and their adult leaders inspected the USS Tunny, America's guided missile sub, as guests of the Island and particularly through the courtesy of leading man Lester Hinzman.

Leaving here shortly before 2 o'clock, the group drove to Mare Island, and saw the submarine inside and out, although the Navy said little about the missile launching device.

After inspecting the submarine the party enjoyed orange juice and cake.

Gene Metz wishes to thank all the adults who participated in furnishing cars for the expedition.

The party consisted of 39 Cubs, four Boy Scouts and the rest adult leaders. Fifteen cars made up the caravan.
